Source and scope: Sampson historical bill spreadsheets and year-by-year proposal files in the supplied Google Drive folder; Connecticut General Assembly member-bill search exports (2011-2020 and 2021-2025); and current CGA bill-status records for 2026. The CGA page identifies official introducers, cosponsors, public acts, amendments, and final actions. This is a curated issue-specific list, not a full audit of every amendment or every 2026 cosponsorship. A proposal and its intended policy effect should not be described as a demonstrated cost reduction.
